Grow Your Fleet. Grow Your Business.

What Is Truck Finance?

Truck finance is a commercial lending product built for purchasing heavy vehicles. It lets your business acquire trucks, vans, utes and trailers without tying up working capital.

Vehicles Riverwalk Finances

- > Trucks – all types and sizes
- > Vans and utes
- > Prime movers
- > Trailers and heavy vehicles
- > New and used vehicles – all major makes and models

How Finance Helps Your Business

- 1. Preserve Capital.** Keep cash available for fuel, wages and daily operations.
- 2. Scale With Growth.** Add vehicles as your contracts grow – no large lump-sum outlay.
- 3. Predictable Costs.** Choose weekly, fortnightly or monthly repayments.
- 4. Fast Approvals.** Most applications processed within 24 to 48 hours.

8 Things to Know Before You Apply

1	Know Your Vehicle Have the make, model, year and purchase price ready. Lenders assess the asset alongside your finances.
2	Gather Documents Prepare 3–6 months of bank statements. BAS accepted for low doc. Include a vehicle quote or invoice.
3	Know Your Budget Calculate the monthly repayment your business can comfortably service before submitting your application.
4	New or Used? New trucks offer warranty and efficiency. Used trucks offer a lower entry cost. Both are fully financeable.
5	Consider a Balloon A residual value at loan end reduces monthly repayments — ideal if you plan to trade up the vehicle later.
6	Get Pre-Approved Lock in your borrowing capacity and rate before approaching any dealer. Pre-approvals available via Riverwalk.
7	Compare Total Cost Review the full written loan comparison Riverwalk provides. Total cost of credit matters more than monthly repayments alone.
8	Ask Questions Riverwalk's team guides you from start to finish. No pressure — ask about any part of the process at any time.
